The Niagara Whirlpool's greatest depth is 125 feet. It is estimated the whirlpool formed approximately 7,500 years ago by the upstream erosion of the Niagara escarpment by Niagara River. Old Fort Niagara is a rich historic landmark; it spans more than 300 years. Its commanding presence on the great lake caused it to play a critical role in the French and Indian War, the American Revolution and the War of 1812. The gorgeous Lake Ontario lies behind the Fort.

(168,000 cubic meters) of water goes over the crest line of the falls every minute during peak daytime tourist hours. This famous Maid of the Mist ride gets passengers as close as possible to the Niagara Falls! The Maid rides right into the mists thrown up by the roaring cascade as the Niagara River tumbles over the edge of the falls.
